

Navigating Current Advances in the Management of GCA

Come join us for an **interactive panel discussion**

Watch as our experts put **Dr. John Stone in the hot seat** with challenging GCA questions

Objectives

- ◎ Assess the utility and availability of modalities to **diagnose GCA in a timely manner**
- ◎ Define the **clinical parameters** that best indicate the use of glucocorticoids and biologics, alone or combined, in the treatment of GCA
- ◎ Understand the **considerations for biologics in GCA**, particularly around dosing and duration, based on recent and emerging clinical evidence
