

You are cordially invited to attend a CanVasc educational webinar on:

The Persistent Multidisciplinary Enigma of Behçet Syndrome

Wednesday, October 14th, 2020

20:00 to 21:00 EDT

Speaker:

Yusuf Yazici, MD

New York University

Department of Medicine (Rheumatology)
NYU Langone Medical Center

Moderated by:

Christian Pagnoux, MD, MSc, MPH

Mount Sinai Hospital

President and Founder, CanVasc

Learning Objectives:

At the end of this program, participants will be able to:

- Understand the challenges associated with diagnosing Behçet Syndrome across specialties
- Distinguish between the phenotypic differences associated with Behçet Syndrome and determine how to best tailor treatment approaches for these patients
- Discuss the Canadian (and US) perspectives on current and emerging therapies available for patients with Behçet Syndrome
